

Hamza Khan

FULL-STACK SOFTWARE DEVELOPER

+923118688410 | hamzakhan.cs25@gmail.com | github.com/hamzakhan-std25 | Islamabad, Pakistan

PROFESSIONAL SUMMARY

Full-Stack Software Engineer specializing in **React, Next.js, TypeScript, Node.js**, and **REST API** development. Experienced in building production-oriented **web applications, real-time systems, eCommerce platforms**, and **AI-integrated features** across **MongoDB, PostgreSQL/Supabase**, and **cloud deployments**. Strong in **end-to-end feature ownership, API architecture, performance optimization**, and **Git-based team workflows**.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Framer Motion, Shadcn UI, Redux Toolkit (RTK)

Backend: Node.js, Express.js, REST APIs, WebSockets, GraphQL, API Integration

Database & Data: MongoDB, PostgreSQL, MySQL, Supabase, Pinecone (Vector DB), Prisma, Redis

AI & Vector Architectures: RAG (Retrieval-Augmented Generation), LLM Integration (OpenAI, Gemini, Groq), Semantic Search, AI Chatbots, MongoDB Vector Search

Auth & Security: JWT, OAuth 2.0, Role-Based Access Control

DevOps & Cloud: Git, GitHub, Docker, Firebase, CI/CD, Vercel, Jest, Cypress, Postman, Linux

WORK EXPERIENCE

Full-Stack Developer Intern

Aug 2026 – present

Mehdi Technologies

G11 Islamabad · 1+ Month

- Develop and customize Shopify storefronts and applications using React, Node.js, REST APIs, and responsive UI patterns.
- Built a Shopify quiz application with React, Node.js, REST APIs, and Supabase, including automated discount fulfillment.
- Developed real-time Node.js services using WebSockets, Redis, Prisma, and Supabase for streaming and session-aware data handling.
- Collaborate through Git/GitHub code reviews while extending Shopify functionality through custom applications.

React Developer Intern

Jul 2025 – Sep 2025

Internee.pks

Remote · 2-Months

- Built reusable React/Next.js interfaces and integrated REST APIs for dynamic, responsive web applications.
- Improved frontend loading efficiency through code-splitting and lazy loading, reducing unnecessary initial asset delivery.
- Implemented responsive UI with Tailwind CSS and contributed through Git/GitHub, code reviews, and Agile workflows.

Web Developer Intern

Mar 2025 – Jun 2025, Sep 2025 – Dec 2025;

TechCreator

Swabi · 6-Months

- Developed responsive websites and interfaces using HTML, CSS, JavaScript, WordPress, and WooCommerce across two project engagements.
- Delivered eCommerce functionality including product layouts, payment gateway configuration, forms, staging/testing, migrations, and production launches.
- Improved website performance through caching and image optimization while supporting SEO implementation with Yoast SEO.

PROJECTS

TaskConnect — Smart Services Marketplace (PWA)

[Live Demo](#)

Node.js · Express.js · React.js · Tailwind · MongoDB · Stripe · Firebase FCM · Google Maps · Docker · Jest · Cypress · AI Integration

- Built a MERN marketplace with geospatial service matching, JWT authentication, RBAC, and Dockerized REST APIs.
- Integrated Gemini semantic search with MongoDB Vector Search, improving service-match precision by 30%.
- Optimized MongoDB geospatial queries, reducing discovery latency by 40%; added an LLM listing assistant that reduced task abandonment by 20%.

AI Real-Time Chat Application (PWA)

[Live Demo](#)

Node.js · Express.js · Websockets · Real-time chats · React.js · Supabase · OAuth · Firebase · Docker · OpenAI API

- Developed a real-time PWA using WebSockets for bidirectional messaging with persistent and offline-capable sessions.
- Integrated Firebase authentication with Google/GitHub OAuth and OpenAI-powered conversational features.
- Containerized backend services with Docker and used Supabase for persistent data and session management.

Part Plumbing — Headless E-Commerce Platform

[Live Demo](#)

Next.js · Framer motion · Headless WordPress · LLM integration · Prompt Engineering · Supabase · Knowledge Base

- Architected a headless eCommerce platform using Next.js/React with WordPress/WooCommerce exposed through GraphQL.
- Built a RAG-based customer-support pipeline using Gemini, Pinecone, and Groq, increasing automated inquiry resolution by 30%.
- Implemented debounced product filtering and WhatsApp lead-generation flows, improving product discovery and lead capture.

EDUCATION

BS Computer Science | GPA: 3.45 /4.0

University of Swabi

2022 – 2026

Swabi, Khyber Pakhtunkhwa

CERTIFICATIONS

- Google IT Support Professional Certificate
- IBM DevOps & Software Engineering
- Google Project Management Professional Certificate
- HCCDA-AI in progress
